CPA EXAMINATION NOVEMBER 1966

A new record for the Firm was set when 123 accountants successfully completed the CPA examination last November. They are the first group to benefit from last year's major revision of our CPA Examination Study Guide by Professor Robert K. Mautz of the University of Illinois, who first designed the study guide for H&S nine years ago. Professor

Mautz and his staff are sensitive to subtle changes and trends in the examination, such as the increasing emphasis on questions dealing with management advisory services, and have compiled an enviable record of preparing students for it. Their review and updating of practice questions brings the H&S study guide abreast of latest developments.
